

Nails and Screws

ROUND WIRE NAILS

Bright or Galvanised

Hot dip galvanised to BS729.

Code RWN

Length (mm)	Gauge (mm)	inch/gauge
100	4.5	4 x 7
75	3.75	3 x 9
65	3.35	2½ x 10
65	2.65	2½ x 12
50	2.65	2 x 12

Ideal for professional and domestic user alike.

CLOUT NAILS

Galvanised

Code GALVCN

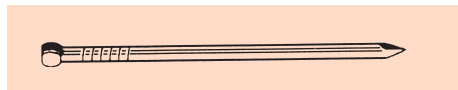

Length (mm)	Gauge (mm)	inch/gauge
65	2.65	2½ x 12
50	2.65	2 x 12
40	2.65	1½ x 12
30	2.65	1¼ x 12

For roofing. Longer lengths of cork, and insulation board, partitions and ceilings.

LOST HEAD ROUND WIRE NAILS

Bright

Code LHRWN

Length (mm)	Gauge (mm)	inch/gauge
40	2.36	1½ x 13
65	3.35	2 x 10
75	3.75	3 x 9

Reduces timber deformation when punched below surface and is easily hidden.

XTRA LARGE HEAD CLOUT NAILS

Galvanised

Code GLAVELHCN

For fixing of non-rigid roll roofings, smooth or grit surface.

WASHERHEAD SLAB NAILS

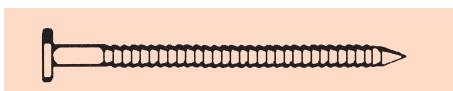

Galvanised

Code GLAVWHSLAB

For fixing insulation and sound-proofing to walls.

ANNULAR RING SHANK NAILS

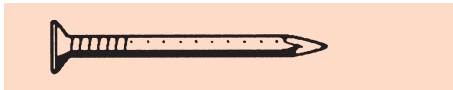

Used where permanent strength and holding power are of primary importance.

CUT CLASP NAILS

JAGGED PLASTERBOARD NAILS

Galvanised

SQUARE TWISTED NAILS

For fixing joist hangers and restraint straps.

HARDENED STEEL WOODSCREWS

COACH SCREWS

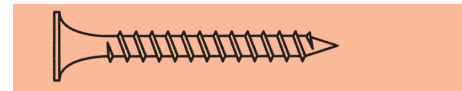

CHIPPY SCREW

Hardened recessed steel – single threaded chipboard screws

DRYWALL SCREWS

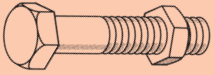

Black Phosphated or Zinc Plated

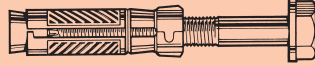

Length (mm)	Gauge (mm)
25	3.5
32	3.5
38	3.5
42	3.5
51	3.5
60	3.5
75	4.2
100	4.2

Nuts, Bolts and Anchors

**HEX ROUND
HEX STANDARD THREAD**
Zinc Plated Din 601/555, BS4190

SHIELD ANCHORS

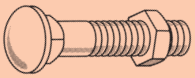

High strength, versatile anchor bolt for fixing into a wide range of dense building materials for both male and female bolt applications.

UPVC FRAME FIXINGS

A fixing for the installation of uPVC window and door frames into solid and hollow building material.

**CUP SQUARE CARRIAGE BOLTS
WITH HEXAGON NUTS**
Din 6503/555

SLEEVE ANCHORS

For fixing to medium to high density materials, particularly brickwork.

DRILL BITS

STUDDING – BZP

Sizes

- M6
- M8
- M10
- M12
- M16
- M20

PLASTIC PLUGS

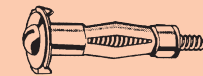

Economical, versatile screw plug, used in most solid building materials.

METAL PLASTERBOARD

HOLLOW WALL ANCHOR

HAMMER PLUGS

A fixing for use where speed and ease of installation is of major importance.

FRAME FIXINGS

A fixing for securing door and window frames to solid building materials.
